

Recommended Adult Immunization Schedule 2023

For ages 19 years or older <https://www.cdc.gov/vaccines/schedules/hcp/imz/adult.html>

How to use the adult immunization schedule

1 Determine what's recommended for your age.

2 What medical conditions do you have that may influence your choice?

3 Some vaccines offer choices. What works best for you?

4 Always check for contraindications & precautions.

Plan for good health this Fall!

Seasonal, change each year.

Anytime of the year.

Other Helpful Information

Report

- Suspected cases or outbreaks to the local health department
- Significant postvaccination reactions to the Vaccine Adverse Event Reporting System at www.vaers.hhs.gov or 800-222-7967.

Injury Claims: All vaccines included in the adult immunization schedule except PPSV23, RZV, and COVID-19 vaccines are covered by the National Vaccine Injury Compensation Program (VICP). COVID-19 vaccines that are authorized or approved by the FDA are covered by the Countermeasures Injury Compensation Program (CICP). For more information, see www.hrsa.gov/vaccinecompensation or www.hrsa.gov/cicp.

Questions & Comments: Contact www.cdc.gov/cdc-info or 800-232-4636, in English or Spanish, 8 am - 8 pm, EST, Monday through Friday, excluding holidays.

Stay Up to Date with COVID-19 Vaccines

What you need to know

For more information visit

<https://www.areaagingsolutions.org/public-health>

Everyone aged 6 years and older should get 1 updated Pfizer-BioNTech or Moderna COVID-19 Vaccine

People aged 65 years and older may get a 2nd dose of updated Pfizer-BioNTech or Moderna COVID-19 vaccine.

People who are moderately or severely immunocompromised may get additional doses of updated Pfizer-BioNTech or Moderna COVID-19 vaccine.

Children aged 6 months-5 years may need multiple doses of COVID-19 vaccine to be up to date, including at least 1 dose of updated Pfizer-BioNTech or Moderna COVID-19 vaccine, depending on the number of doses they've previously received and their age.
